# MINI CABLE SEAL

Very user-friendly and highly tamper-evident, the Mini Cable Seal can be applied to secure various applications for a range of security requirements with trucks, tanker trucks, air wcargo containers, shipping containers, rail car, valves and calibrators in various industries. This improved version of the Mini Cable Seal is moulded with 2 colours for improved visibility and barcode readings. It features a grooved surface to protect the serial number markings on the seal, and a waved design to deter tampering attacks.

High Security seal certified by the latest ISO PAS 17712:2013.
